***Examiner's Comment***

The drawings submitted on 3/16/06 are not properly identified in the top margin as "replacement sheet" (see Notice of Non-compliance PTOL-324 mailed on 3/24/06).

The applicant is required to re-submit corrected drawings with proper "replacement sheet" identification for all drawing pages (total of 29 drawing pages).

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowed because the prior art of record does not teach or suggest the followings limitations in claim 1 (and/or similarly recited method claim 12):

A nanoscale logic gate having an alternating-current source; two or more input signal lines connected through resistive elements to the alternating-current source and carrying direct-current logical states; a signal line connected to the alternating-current source and two or more input signal lines through a switch element that is either in a high-impedance state or a low-impedance state; and an output signal line that outputs an AC logical state.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

**Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Dinh whose telephone number is 571-272-1890. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Chiang can be reached on 571-272-7483. The fax number for the organization where this application or proceeding is assigned is 571-273-8300.
